### 2014 Basic Law Enforcement Job Task Analysis

On May 13, 2014, a panel of fourteen officers from various departments and four Academy instructors participated in a two day workshop to validate and update the 2005 Job Task for Basic Law Enforcement. The workshop was guided by Jennifer Tatum and Kathy Danielsen from Standards, and John Yarborough from Training. A list of all the panel members is attached along with all recommendations.

During the workshop the panel recommended that a block of instruction for “Dusting and Lifting Latent Fingerprints” be developed and implemented in the BLE program. This was discussed and found to be an option during the existing Crime Scene block of instruction taught in week four.
