NOTE: Field Certifications: For November class: Field Certification will be held Nov 30 – Dec 4, 2026

Course Description:

This course is designed for law enforcement officers who have a strong commitment to DUI and drug-impaired driving enforcement and whose agencies are also committed to this cause. This course is available only to those who have successfully completed Advanced Roadside Impaired Driving Enforcement (ARIDE) training and who have been a DUI/SFST Practitioner for at least 2 years. Officers will be selected by the DRE State Coordinator after making an application.

After successfully completing the classroom portion of this course, the student will be ready to continue to the final phases of the DRE Certification Program. The student will be able to name the seven categories of drugs and recognize the effects of each, to describe and proficiently administer the 12-step drug influence evaluation, to document the results of the drug influence evaluation in narrative format, to properly interpret the results of the drug influence evaluation, to testify as an expert witness in drug influence-related cases, and to maintain an updated curriculum vitae. The student must attend all portions of the training, maintain an 80% average or better on the quizzes, pass two examinations with a score of 80% or better; and successfully complete the Field Certification phase of the course.

A candidate scoring less than 80% on the final examination may, if utilized by the state, be retested one time, under the supervision of a certified DRE instructor. The retest shall be completed not less than 15 or more than 30 days following the completion of the classroom training. If the candidate was originally given Test Form A, they should receive Test Form B for the retest.

To be certified as a DRE, the student must also complete the field certification phase of training as well as the Certification Knowledge Examination. The field certification phase of training requires that the student travel with the South Carolina DRE Program, likely out of state; and successfully complete 12 hands-on drug influence evaluations and associated narratives.

Lodging for Field Certifications agencies will be responsible for reservations and accommodations for Field Certifications.

For reimbursement information please contact Joshua Bower from SCDPS at JoshuaBower@SCDPS.GOV

Who should attend: (Class Max - 20) Class I law enforcement officers with a passion for DUI/traffic enforcement, and whose agencies/prosecuting bodies firmly support the utilization of the DRE Program.

Prerequisites:

Full-time, active SC Class I law enforcement officers in good standing with their agencies. Attendees must be currently certified as NHTSA DUI/SFST Practitioners or equivalent for at least 2 years. Attendees must attend and complete ARIDE prior to being considered for enrollment in this course. For consideration for enrollment, the prospective attendee must have completed a DRE School Application and be approved directly by the DRE State Coordinator. Attendees must have the blessing of their employing agency and must also be available to attend the field certification training phase associated with the DRE School. The officers must send applications to the DRE State Coordinator JoshuaBower@SCDPS.GOV, and then the officers will be selected by the DRE State Coordinator.

Course Description:

Subjects who are threatening to commit suicide or subjects actively involved in the hostage-taking of an innocent victim(s) present a very challenging, highly emotional, and life-threatening dilemma to law enforcement entities. Law enforcement hostage/crisis negotiations are based on a set of fundamentals, concepts, and skills that are designed to address and communicate with individuals in crisis. The most important goal in all law enforcement hostage/crisis

negotiations is to save lives. This is done by working to achieve a non-violent resolution through communication. The skills utilized in this endeavor are designed to enhance active listening, express empathy, build rapport, and then influence the actions and behaviors of the individual in crisis. The purpose of this class is to provide agencies with officers that are taught the advanced skills needed to address subjects involved in a suicidal crisis situation or subjects(s) involved in the hostage-taking of innocent victims.

Students will learn how to manage these highly emotional and dangerous situations. Students will learn how to assess all factors relating to the logistics of these situations as well as the subject(s) motivation and behavior. Students will learn the skills necessary to communicate with the subject(s) involved in these situations. The skills utilized in this endeavor are designed to enhance active listening, express empathy, build rapport, and then to influence the actions and behaviors of the individual in crisis.

Resources Required:

This course includes practical applications for various types of crisis situations and is designed to provide a realistic practical experience for the student. As such, it may require participation in extended training hours and will necessitate involvement in highly charged and potentially stressful scenarios.

Proficiency/Credits:

Students will be administered a Final Examination consisting of 25 questions. Students must show proficiency by obtaining a score of at least 80%.

Reporting Instructions:

Please report promptly to SCCJA at 8:00AM.

Who Should Attend: (Class Max - 15)

Prerequisite:

Class I and II officers with at least 5 years' experience unless assigned to a specialized unit.

Officers assigned to positions where they may be tasked with response to a crisis incident and engage in an ongoing negotiation. This is an advanced, and highly specialized skill, that is taught during this training class. Agencies should choose candidates based on years of service and events that have shown these officers to possess excellent crisis solving skills.

Course Description:

The Speed-Measuring Device Instructor Recertification Training program will reinforce the knowledge and skills taught during the speed measuring device instructor initial training. SMD Instructors are NOT required to take the online SMD Recertification course. If a SMD Instructor takes the online SMD Recertification course, then they must perform a SMD proficiency and properly submit it to the Traffic Safety Unit or this could also result in a failure resulting in loss of SMD

Operator and SMD Instructor Certification. If a SMD Instructor takes the online SMD Recertification course and fails to acquire a passing grade of 80% or higher the officer loses both the SMD Operator certification as well as the SMD Instructor certification.

Instructors should complete the online form showing throughout the three (3) year period as a Speed Measurement Device Instructor, they completed a minimum of either two (2) classes taught either as a Lead, Assistant, or Adjunct Instructor OR have completed 3 road proficiencies that were submitted within 24 hours of the proficiency being completed. Instructors will be required to submit electronic copies of completed paperwork for proficiencies and classes taught.

Once the online form has been completed, Speed Measurement Device Instructors will then be required to complete a road proficiency with a South Carolina Speed Measurement Device Instructor. During the proficiency, Instructors wishing to recertify will be required to complete the entirety of the proficiency packet, excluding Stopwatch Mode and Fastest Mode. All other modes must be completed, or the proficiency will be considered a failure.

For this class instructors will need access to a vehicle that has both front and rear facing antennas, and a lidar unit.

Who should attend: All SMD Instructors currently in need of recertification on their third year of certification.

Prerequisites: SC Certified Class 1 Law Enforcement Officer who is currently certified as a SMD Instructor and who holds a current Specific Skills Instructor or Basic Instructor Development certification.

Course Description:

The Speed Measuring Device Operator training program is designed to improve speed enforcement programs and enable agencies to better allocate their resources. This course is specifically designed to provide officers with the knowledge and skills necessary to properly operate speed measuring devices. Upon successful completion of the written test (80% Passing Score). The student will then be required to submit to a SMD road proficiency test, which must be completed and submitted by the last day of the fourth week (28 Calendar Days) after the written test. The student will be required all planned modes of enforcement operation on the submitted proficiency. If Radar is utilized, the minimum requirement is forward stationary and moving modes. The student must be accurate within and average of +/- 3 MPH in all attempted modes of SMD Operation. Upon successful completion of all course requirements, the student will be certified to operate Police Traffic Speed Measuring Devices.

LODGING IS AVAILABLE FOR THIS CLASS WHEN HELD AT THE SCCJA. FOR CLASSES HELD IN THE FIELD, THE STUDENT'S AGENCY IS RESPONSIBLE FOR LODGING AND MEALS.

Who Should Attend: (Class Max 12) Officers involved with traffic enforcement and regular patrol duties.

Prerequisites: SC Certified Class 1 Law Enforcement Officer or active SC Reserve Law Enforcement Officer.

Speed Measuring Device (SMD) Operator Recertification (5 CLEE Credit Hours)	May 01, 2026 - October 31, 2026 (10/31/2026 Expiration) May 01, 2027 - October 31, 2027 (10/31/2027 Expiration)	Online/Unlimited Online/Unlimited

Course Description:

Online courses will open after May 1st. The SMD Operator Recertification Course is intended for officers who are currently (not expired) SMD Operator certified and whose operator certification expires October 31st of the current year.

The course content is designed to refresh the operator's knowledge and skills learned during the operator course. Upon successful completion of the instructional portion and written test (80% Passing Score), the student will be required to complete and submit a SMD road proficiency test within two weeks (14 Calendar Days) of their written test date.

The SMD road proficiency test submitted must contain all modes utilized by the Operator in enforcement, at a minimum the Operator must complete sections for forward stationary and moving modes. Successful completion and submission of the road proficiency test within the two-week deadline is required in order to maintain SMD Operator certification.

Failure to properly recertify will result in immediate revocation of your operator certification, and you will need to retake the operator certification course. Officers are allowed one attempt at the recertification. A failure of the first attempt written test or failure to pass or submit the proficiency test within 14 calendar days will require the officer to attend the SMD Operator course to regain certification.

Who should attend: Officers that possess an active and current SMD Operator Certification that are in their third year of the certification and expiring.

Prerequisites: SC Certified Class 1 Law Enforcement Officer or active SC Reserve Law Enforcement Officer with Current (not expired) SMD Operator certificate.

Course Description:

This course is designed to bridge the gap between collision investigation techniques learned in basic law enforcement training and those learned in the collision investigation series. In this course, the student will learn how to correctly respond to, secure, photograph, and document the scene of a serious traffic collision. The student will also learn methods to document and calculate the drag factor, grade, and super-elevation of the roadway and conduct basic speed estimates. This course is not required as a prerequisite for completing Phase I- At Scene Collision Investigation.

FOR CLASSES HELD IN THE FIELD, THE STUDENT'S AGENCY IS RESPONSIBLE FOR LODGING AND MEALS.

Who should attend: (Class Max:20)

Class 1 Officers involved with traffic enforcement and regular patrol duties.

Prerequisites: Certified full-time Class 1 law enforcement officers

The officer is responsible for bringing their own special equipment: a notebook for note-taking, scratch paper for practice calculations, and a pencil.

Course Description:

This course is designed to update officers who have already attended both the Pedestrian-Bicycle Collision Investigation and Motorcycle Collision Investigation courses. The course will refresh methodologies taught in each respective course as well as to update those officers who have attended in the past in the usage of new or updated formulae. The course covers topics such as pedestrian trajectories, the pedestrian-bicycle-motorcycle crash sequences, and calculating impact speeds using the Appel, Barzeley & Lacy, Bratten, Fugger & Randles, Limpert, Searle, Horizontal Speed Loss, Toor, Motorcyclist Vault, Wheelbase Deformation, and Wheelbase Deformation and Vehicle crush formulas.

Who should attend: (Class Max: 12)

Class 1 Officers involved with traffic enforcement and regular patrol duties

Prerequisites: Successful completion of both TCI- Pedestrian-Bicycle Collision Investigation and Motorcycle Collision Investigation.

The officer is Responsible for bringing their own special equipment: a scientific calculator, pencil, and scratch paper for calculations.

Class Fee: \$140		

Course Description:

This is the first course in the collision investigation series. This course is designed for police officers who collect and record data at the scenes of motor vehicle collisions. In this course the student will learn how to identify and preserve physical evidence from the traffic way and evidence from the vehicle, how to properly measure and complete a scale diagram, and how to calculate speed estimates from evidence located at the collision scene.

LODGING IS AVAILABLE FOR THIS CLASS WHEN HELD AT THE SCCJA. FOR CLASSES HELD IN THE FIELD, THE STUDENT'S AGENCY IS RESPONSIBLE FOR LODGING AND MEALS.

Who should attend: (Class Max: 12)

Class 1 Officers involved with traffic enforcement and regular patrol duties.

Prerequisites: SC Certified Class 1 Law Enforcement Officer.

The officer is responsible for bringing their own special equipment: a drafting eraser, colored pencils, and a laptop computer that is capable of running Adobe Acrobat PDF.

Investigation		
(80 CLEE Credit Hours)		
2 Weeks		
Class Fee: \$140		

Course Description:

This is the second course in the collision investigation series. In this course the student will learn how to calculate speeds of vehicles involved in collisions using airborne, linear momentum, kinetic energy, and time and distance equations. The student will also learn to use vector diagramming in their investigations. The student must have successfully completed the At Scene Collision Investigation course as a pre-requisite.

LODGING IS AVAILABLE FOR THIS CLASS WHEN HELD AT THE SCCJA. FOR CLASSES HELD IN THE FIELD, THE STUDENT'S AGENCY IS RESPONSIBLE FOR LODGING AND MEALS.

Who should attend: (Class Max:14)

Class 1 Officers involved with traffic enforcement and regular patrol duties.

Prerequisites: SC Certified Class 1 Law Enforcement Officer. Successfully completed: TCI –Phase 1 At-Scene Collision Investigation.

Officer is responsible for bringing own special equipment: scientific calculator, blue blitz, drafting eraser, 360-degree counter-clockwise protractor, colored pencils, and a laptop computer that is capable of running Adobe Acrobat PDF.

2 Weeks		
Class Fee: \$140		

Course Description:

This is the third course in the collision investigation series. This course expands upon knowledge learned in Technical Collision Investigation. Through the use of projects, case studies, and live testing the student will learn more in depth methods to calculate speeds of vehicles involved in collisions using airborne, linear momentum, kinetic energy, and time and distance equations. The student will also learn how to write a collision reconstruction report and prepare for trial as a collision reconstructionist. The student must have successfully completed the Technical Collision Investigation course as a prerequisite.

LODGING IS AVAILABLE FOR THIS CLASS WHEN HELD AT THE SCCJA. FOR CLASSES HELD IN THE FIELD, THE STUDENT'S AGENCY IS RESPONSIBLE FOR LODGING AND MEALS.

Who should attend: (Class Max: 12)
